

Rainwater infiltration

Project data

100 %
RECYCLED

Project

Raiffeisen Arena - LASK, Linz (Austria)

Application

Rainwater infiltration

Category

Sports and leisure facilities

Product

EcoBloc Inspect 420

Storage capacity gross

Infiltration basin 1: 498.9 m³

Infiltration basin 2: 502 m³

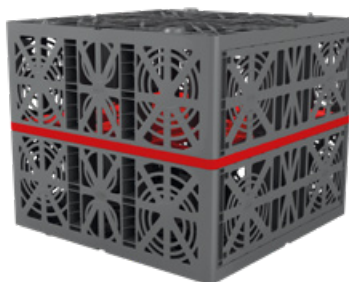

Storage basin: 190 m³

Dimensions

L 43.2 x W 17.6 x H 0.66 m

L 52.8 x W 14.4 x H 0.66 m

L 22.4 x W 6.4 x H 1.32 m

The Raiffeisen Arena is the new home of the LASK football club, which plays in Austria's top league. The arena was completed in February 2023 and can seat just under 20,000 spectators. In order to drain the total area of 39,060 m², of which almost 18,000 m² are roof areas, two infiltration basins and a storage basin were installed.
