

Rainwater retention

Project data

100%
RECYCLED

Project

Saddle Ridge, Alberta (Canada)

Application

Rainwater retention

Category

Industry/Commercial

Product

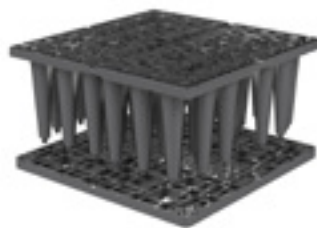

EcoBloc Inspect smart

Storage capacity gross

72,4m³

Dimensions

10,4 x 6,4 x 1,03 m

A multi-phase residential & commercial site located on the north-east side of Calgary needed a stormwater management system to meet local requirements. EcoBloc Inspect Smart modules were chosen to build this detention tank due to its ease of install, and overall efficiency and cost effectiveness. In total, North Star completed installation of the modules in 6 hours.
